FGF TRAPANI is a company which for more than 60 years has been devoted to produce and trade fresh lemon and its by-products, and to a less extent, some other citrus as well. Thus, the company is a lemon supplier, growing steadily every year in domestic and international markets. FGF TRAPANI is supported by an important group of growers. Together they gather and process more than 100000 tons of lemon annually. This production is directed to fresh fruit industrialization and export.

UNITEC is a company specialized in the design and manufacturing of technologies for processing, sorting, selecting and packing of over 35 kinds of fresh fruit and vegetables. Since 1924, UNITEC has been improving fruit and vegetable processing quality in countries all over the world. On the international level, UNITEC has a network of branches in some of the leading fruit- and vegetable-producing countries such as the U.S., France, Spain, Chile, Argentina, South Africa and Turkey. In 2002 UNITEC became the first company in its sector to obtain the ISO 9001 Certification for Quality Management Systems and, afterwards, both the OHSAS 18001 Certification for Occupational Health and Safety Management Systems and the ISO 14001 Certification for Environmental Management Systems.
