About us	<p>Kingberry S.A is an Argentinian company dedicated both to the production and export of fresh organic and conventional blueberries, we are owners of our own facilities for the packing of fresh and frozen fruit. Our certificates include Organic, Global Gap, BRC, SMETA and Kosher. On the other hand, we also export conventional IQF frozen strawberries and pomegranate arils. The company is vertically integrated, this means we don't require 3rd party companies to produce and export our products. We have the know-how to export to any country required by our customers.</p> <p>Today, our main markets are USA, Canada, UK, Germany, Netherlands, Spain and Brazil. We have also exported to Dubai through brokers in the past.</p>
Location	Tucuman, Argentina.
Creation date (DD/MM/YY)	2005

About us	Agroberries S.A (Argentina) is part of a holding company of companies located in different countries, whose objective is the production and marketing of Berries during the 52 weeks of the year. To achieve this, it has plantations in Argentina, Chile, Peru, Mexico and the United States. Marketing companies are located in the United States and in Europe. Agroberries (Holding) has more than 20 years of history, starting its operations in 1996 in Chile, to later incorporate Operations in Argentina in 2002, in the USA in 2005 through Berryfresh, Mexico in 2006, Peru in 2015 and Europe in 2018. This growth allows it to market more than 25,000 tons of Berries, with blueberries being its main product with more than 15,000 tons. One of its main strengths is that more than 50% of this fruit comes from our own fields, with nearly 1,500 hectares planted in different countries, which allows us to have a high level of compliance with our main clients around the world
